Don't Rasp Your Throat With Harsh

Irritants

"Reach for a **LUCKY** instead"

Eve started it and the daughters of Eve inherited it. Eve gave Adam the apple, and it seems that Adam must have passed it on. For every man and every woman has an Adam's Apple. Put your finger on your Adam's Apple -that is your larynx, your voice box it contains your vocal chords. Consider your Adam's Apple —when you do so, you are considering your throat—your vocal chords. Dan't rasp your throat with harsh irritants. Reach for a LUCKY instead. Here in America LUCKY STRIKE is the only cigarette which brings you the added benefit of the exclusive "TOASTING" Process, which includes the use of modern Ultra Violet Rays. It is this exclusive process that expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. And so we say 'Consider your Adam's Apple."
